

## August Monthly Breakthrough

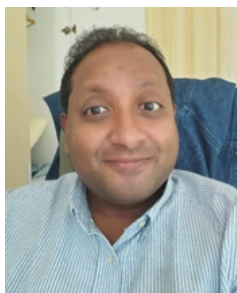

Hey Feng Shui Fam!

Joey's back with his August updates – so let's jump right in.

I was glad to hear back from many of you who took advantage of the information from Joey's personal Feng Shui files last round.

Many of you let me know you secured unexpected new clients and one even got their major project approved by the state government. A couple of you managed to resolve long-standing personal issues you were facing – well done!

And I expect many more of you to WIN in August as well. As always, if you need anything, I am here for you – please feel free to reach out.

Your Friend in Feng Shui!

**Gurunathan**

**Hey Feng Shui Fam, Joey Yap here.**

Welcome to August!

As these are my personal notes – I am **only** sharing these with you as part of our **Feng Shui Mastery Circle** members. I would ask you not to share this with anyone else – just in case they may not be as well-versed with these applications and accidentally trigger some mishap. For example, the stars referenced below work *only* alongside the Constellation indicated – and some application of the Black Rabbit Timing is essential here as well. Only the important stars in each sector are mentioned but you should be aware, that there are also additional stars I left out, to avoid over-complicating the learning and keep it straightforward.

And do keep your success stories for August coming! 😊

Cheers,

### **~~Don't Go Looking for Trouble:~~**

First things first, **AVOID** activating these sectors in your home or office:

- **North 1:** You don't really value your Health – till you're sick. So The North 1 sector, is to be avoided at all costs this month of August. The Earthly Officer Charm (地官符) and Great Sha (大煞) will be particularly harmful to children and can cause unexpected illnesses. Children are particularly vulnerable to the ill impacts here.
- **Northeast 3:** More possible Health issues here – ouch! There is a collection of bad stars like the Duke Punishment (歲刑), Golden God (金神), and Month Destruction (月破) Stars which are not a good sign. Along with the combo of 2- 6, there is a high chance this could trigger hallucinations, mental stress, and emotional drama.
-

- **Southeast 1 & 2:** Quite a nasty combination of the Yellow Flag (黃旗), Chastity (貞), White Tiger (白虎), Silkworm Officer (蠶官), Silkworm Room (蠶室), Destructive Five Ghost (破敗五鬼), Fiery Stars (丙丁獨火), Wandering Fire (月遊火) and Robbery Sha (劫煞). If you do activate this area, expect the potential of a loss of wealth and support from those in power. High possibility of betrayal as well.
- **Southwest 1:** This area plays host to the Sickness Charm (病符), and Murders (三煞) in August, so expect extreme sudden illness, possible setbacks in work and business, as well as volatility with your Health. The Five Ghost (五鬼) star here also creates unnecessary tension from 'frienemies' and office politics.
- **Northwest 1:** In addition to being the Annual Year Breaker, this month brings the negative energies of the Leopard Tail (豹尾) and Funeral Door (喪門). Be wary of offending people at work, or aggravating your partner or friends – as otherwise this could create resentment that boils over into a sudden loss of support, or even your loyal advocates switching sides.

Like I mentioned last round – just avoid stirring up the energies in the above sector with any renovations or major movements. Spending time within these areas (except for Northeast 3) is acceptable.

### **~~Messed Up? Great Sun Formula to the Rescue~~**

First and foremost – If you have mistakenly activated the Annual 5 Yellow or 3 Killings, here is the sector to use to turn back some of the negative impacts:

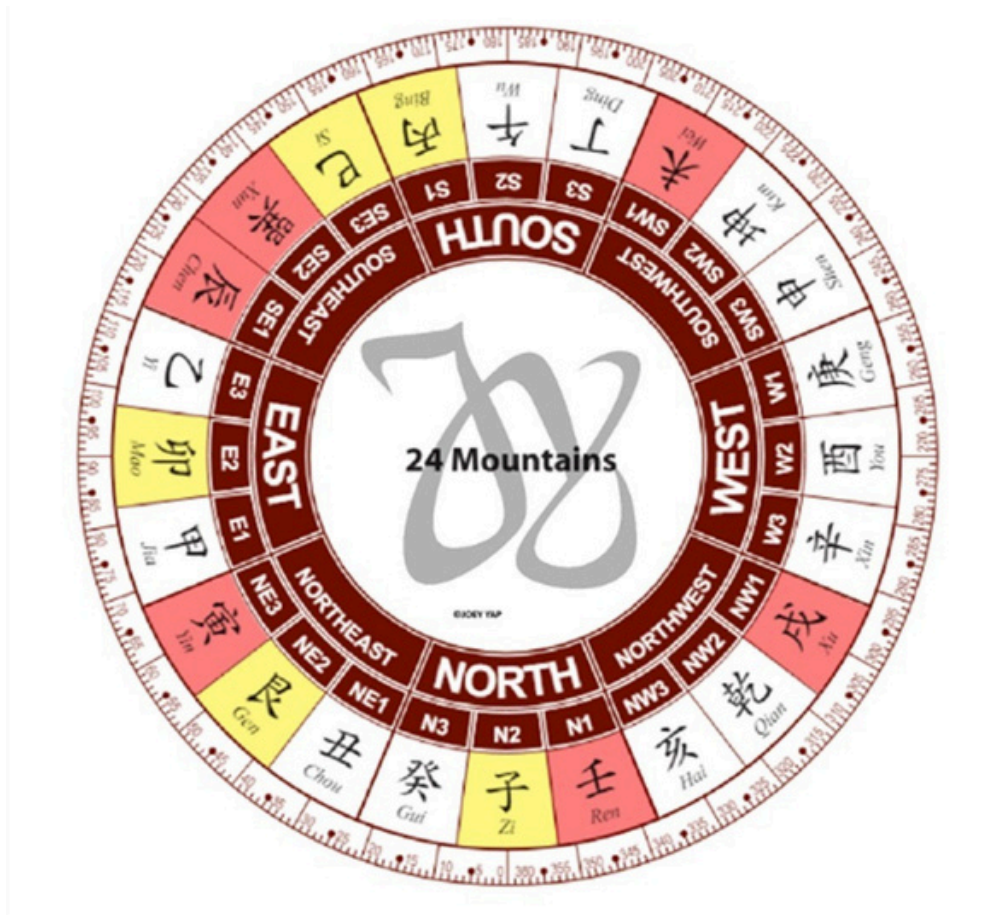

- **Southeast 3:** This sector falls within the Great Sun Formula and has Yin Noble (陰貴人), Fortune Virtue (福德), and the Orion (參) Constellation which will help restore some positivity to your residence or office.

If you do not have issues with having activated any negative sectors – skip the above and look below for the other sectors to tap into for August.

### **~~Looking to Renovate or Activate?~~**

Good sectors for activation and renovation are highlighted in yellow and the red ones are to be avoided.

- **Northeast 2:** If you need to quickly flip a situation from bad to good – activate this sector. The positive energies here are the River Scholar (河魁), Professor (博士), Yin Nobleman (陰貴人), Flying Wealth (飛天祿) and Qi Men Bing Noble (丙) stars. Especially useful if you find yourself needing mentorship and support from someone in a position of authority.
- **North 2:** Our Wealth sector for the month! Brought to you by the positive energies of the Wealth Huge Door (巨門), Great General (傳送), Constellation of the Heavenly Path (天道) and Monthly Virtue (月德). I would still recommend you **take action** after activating it, however – no free lunches unfortunately 😊
- **South 1:** Fire up your extrovert side this month and activate South 1, to bring

forth your networking abilities. You will find it easier to find business partners, get funding, and also structure joint ventures. The positive stars here are the Grand Marshall (功曹), Sha Emptiness (月空), and Yi Noble (乙) of the Qi Men chart is here as well. If you have perhaps offended someone or need to repair a relationship, activating this sector will help you in making amends.

- **East 2:** The presence of the Yang Noble (陽貴人), Lightly (勝光), and Wen Qu (文昌) stars leads that this is a great sector to power up for spiritual energy, and prayers and also works to heighten your intuition. I also like that the Dragon Virtue (龍德) star here does help when I need to solve existing problems and/or address health issues.

### **Activation DATES you asked for!**

Now, let's talk specifics on activation dates. Mark your calendars!

- **August 8th:** As the Sun and Black Rabbit converge on the Astrid Constellation, use this to activate the North 2 sector between 7 am to 9 am.
- **August 14th:** Activate the South 1 sector between 7 am to 9 am on this date and take advantage of the Life Governor, Moon, Orion, and Earth Storage to help with any activities focused on uncovering opportunities for Wealth that you may have overlooked all this while.
- **August 17th:** All the positive stars align on this date at East 2, Yellow and Black Belt, and Black Rabbit converge with the Willow Constellation. A highly favorable time for activating this sector is between 1 pm and 3 pm.
- **August 20th:** You can activate either North 2 or Southeast 3, between the hours of 9 am to 11 am to take advantage of the positive stars here – including the Wind Constellation that we really like.

As I mentioned before – the dates I am providing here are for **Feng Shui** activation only. Do not confuse this with Date Selection and undertake any other activities for product/business launches using this!

I fully intend to take advantage of the dates above and I hope you will as well this August.
