Introduction

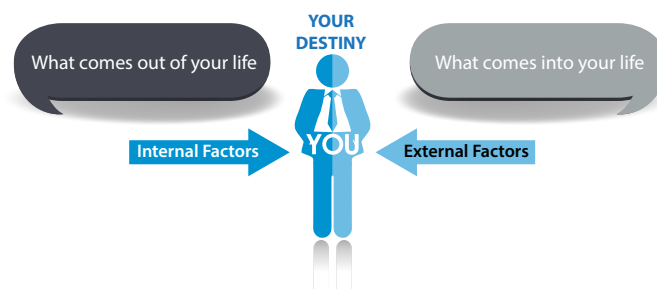

Your Destiny and Change

We always talk about Change and how important it is to embrace it if one seeks growth and improvements in life. The act of making a change is a tough one for many. Some may resolve that Destiny has set them on this path, and nothing can be done about it.

But that's not true. Destiny *can* be changed and you have the power to do it. This power is called "Free Will".

Change happens in two ways:

- What comes into your life, and
- What comes out of your life.

3

By analyzing your BaZi chart, you can look for these changes in your life, which will help you see the options, possibilities or even potential risks ahead. It is up to your own free will to steer your Destiny towards your desired outcome.

To affect change, the process must begin with a decision. Never underestimate the power of decisions. It's the 'kickstarter' that can set things in motion and eventually make a difference in your life.

The Power of Decisions

Decisions we made are based on what options we are presented with. The better our options, the better our decisions. Quality decisions can determine the quality of our life.

In BaZi Astrology, you will learn that different personality profiles approach their decisions in their own unique way based on the perception of their choices. Understanding how each profile behaves will provide you with an insight on how they make decisions, which can ultimately influence or inspire them to make better quality decisions. When this change occurs, it will eventually improve their quality of life.

Your Internal & External Destiny

Your Destiny is not carved in stone, as mentioned earlier. It is influenced by two factors:

Internal Destiny	External Destiny
Your personality, thinking patterns, talents, skillset	Opportunities, events, timing, economy, factors beyond your control

4

Though you have no control over your External Destiny, you do have the control – and the free will – to change your Internal Destiny.

This is where you can affect change to your Destiny. No matter what the situation you may find yourself in, for as long as you are willing to make the necessary actions and choices, you have the chance to affect positive changes in your life.

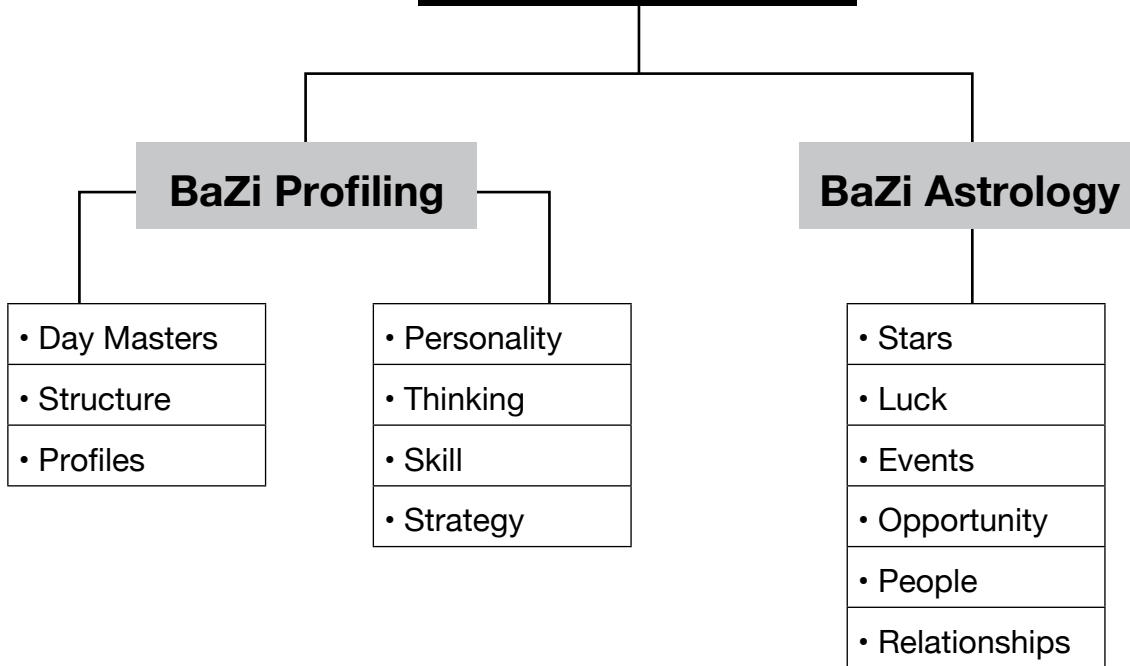

BaZi Profiling can help you learn to understand yourself (the internal factors) and make informed decisions (the external factors) to shape your Destiny. Learn the forces that influence you and master what you can influence.

Your BaZi can act as a guide to help you make better decisions and allow you to design the life that you desire in the least resistant way possible. In a way, it makes a powerful combination of self-improvement and informed decision making.

BaZi Profiling

八字 BaZi

6

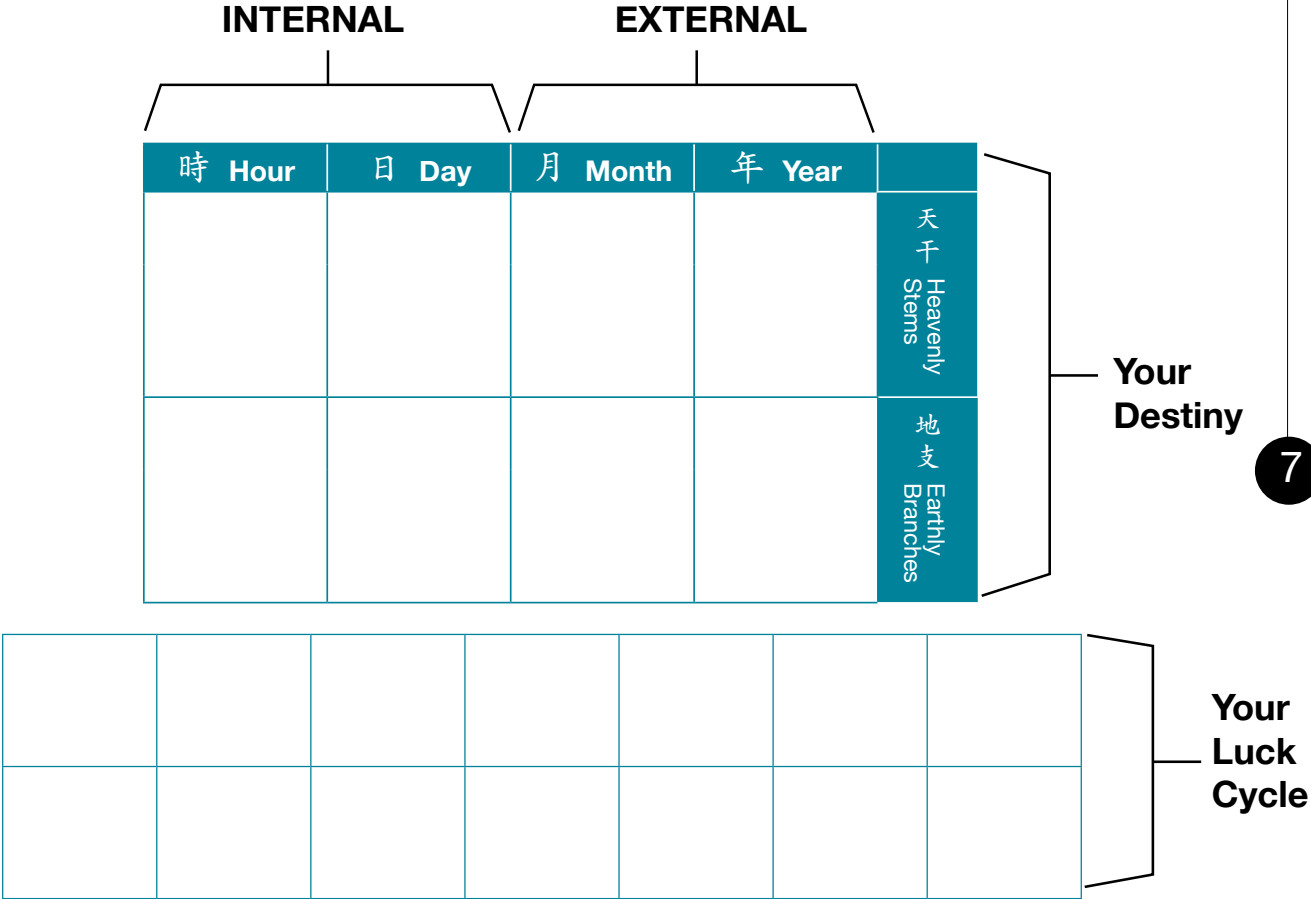

The Four Factors of BaZi Profiling

The four important factors to elevate one's quality of life are:

Personality	Character makes a person. Character is mindset and also attitude. Success or failure greatly depends on an individual's inner personality. People with positive attitude normally succeed faster.
Thinking	Cultivating different thinking skills and sharpening your thinking through knowledge and experience, can give you the aptitude to find smarter solutions to problems and approach your goals better.
Skills	Skills add value to an individual. A person becomes valuable when he or she has something beneficial to offer. As skills equates to wealth, finding time to improve or acquire new skills will give you the advantage to increase your wealth.
Strategy	The improvement of one's quality of life does not happen automatically. It is an evolving process that requires strategic planning to achieve the desired outcome. As the saying goes, "Fail to plan, plan to fail".

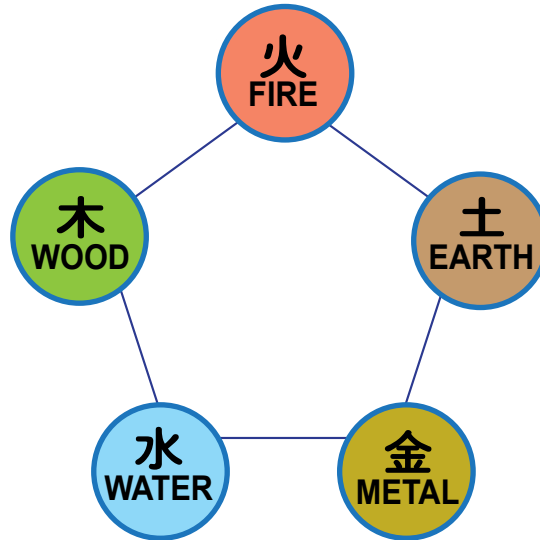

BaZi Essentials

BaZi Chart:

The Five Elements (Wu Xing 五行)

The Five Elements in the study of Feng Shui, BaZi and classical Chinese Metaphysics are:

8

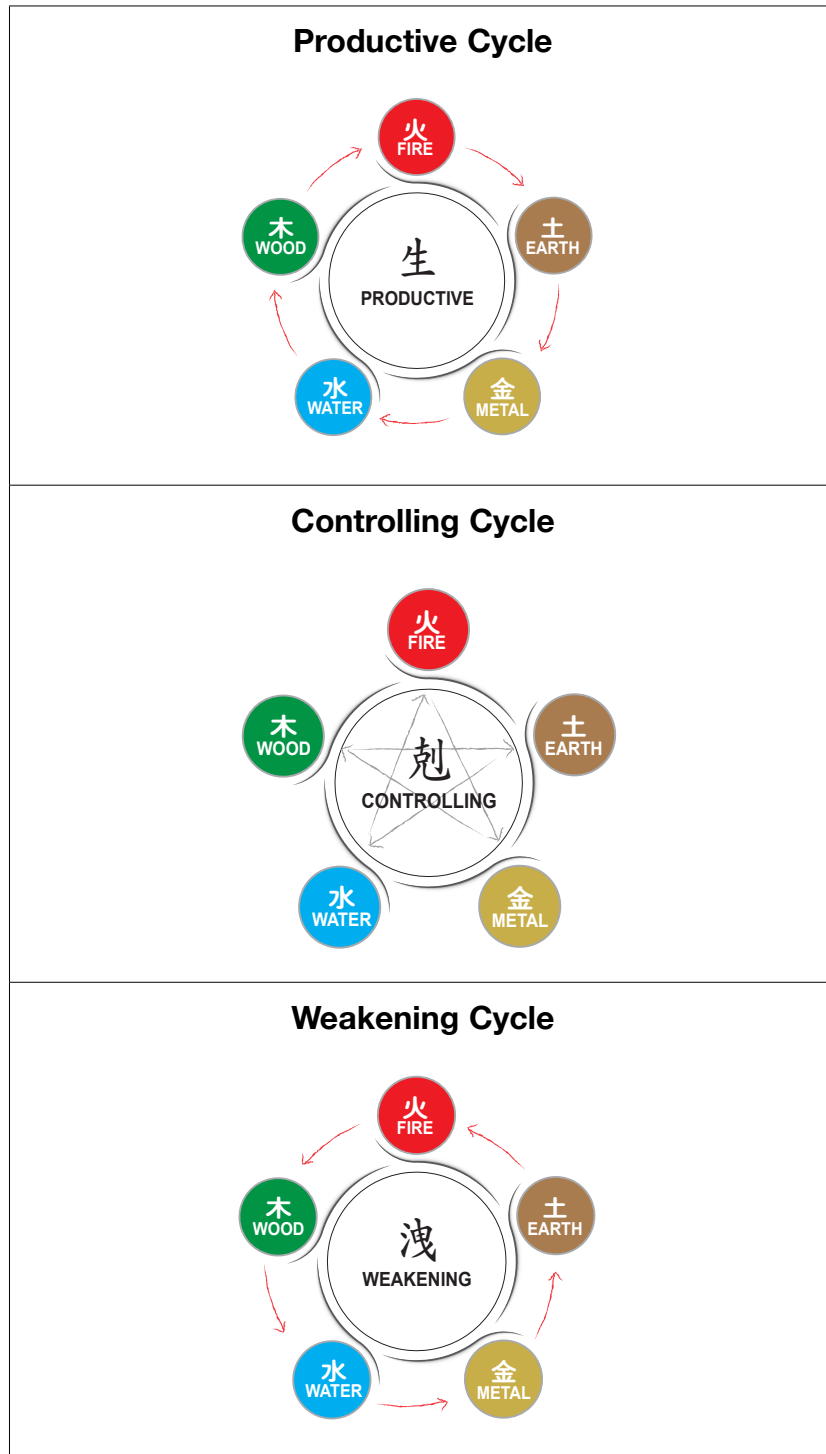

The Five Elements are used to symbolically represent Qi and should not be taken in a literal sense. In BaZi, they are used to represent certain key attributes in a person's BaZi chart.

Five Types of Qi

Element	Representation	Properties	Shapes	Colors
Earth	Trustworthiness, stability, wealth	Attractive, dense, stable	Square	Yellow
Metal	Justice, authority, altruism	Sharp, pointing, piercing	Round	White, gold, silver
Water	Wisdom, thoughts, intelligence	Runs downhill, free/unbound	Wavy	Blue, black
Wood	Life, growth, benevolence, education	Grows outwards, enduring	Oblong	Green
Fire	Beauty, elegance, passion	Spreads in every direction, radiates heat	Sharp	Red

The Three (3) Cycles

These Elements share three types of relationships known as Cycles, through which an element can affect another element. Depending on the cycle, these elements Produce (grow), Control (counter) or Weaken one another.
